1. This Office action is in response to the amendment filed 5/28/2004. Claims 1-16 have been amended.

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

3. Claims 1-16 are allowed.

4. The following is an examiner's statement of reasons for allowance:

The reception of steering angle and deriving an estimated path for a vehicle as well as overlaying an image on a display is not new in the prior art. Also, the rear-view monitor for use in vehicles taught by **Ishikawa et al** [U.S. 6,218,960] includes first and second image processing means. However, the two image processing means are not used to derive a farthest point and the estimated path of the vehicle. The claimed intermittent updating of the overlaid path is found in **Okamoto** [U.S. 6,587,760]; however, the filing date of the instant application is earlier than the filing date of the reference.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
